### Example Numbering

Each example in the book is numbered using a Roman numeral followed by an Arabic numeral. The Roman numeral refers to the particular section of the book in which the example occurs, and the Arabic numeral indicates the particular placement of an example within that section. For instance, **EXAMPLE III:13** means Section III, 13th example. When a track number appears after the example number [**EXAMPLE I:48 (TRACK 1)**] it means the example has been recorded and can be heard on the accompanying CD.
