## VERSE 1

C                            G/B C                            G/B  
 There's a calm surrender to the rush of day,

C                            G/B            Am7                            D  
 when the heat of a rolling wind can be turned away.

C                            G/B            C                            G/B  
 An enchanted moment, and it sees me through.

C                            Em                            F                            D  
 It's enough for this restless warrior just to be with you.

# GUITAR NOTATION LEGEND

## Chord Diagrams

**CHORD DIAGRAMS** graphically represent the guitar fretboard to show correct chord fingerings.

- The letter above the diagram tells the name of the chord.
- The top, bold horizontal line represents the nut of the guitar. Each thin horizontal line represents a fret. Each vertical line represents a string; the low E string is on the far left and the high E string is on the far right.
- A dot shows where to put your fret-hand finger and the number at the bottom of the diagram tells which finger to use.
- The "O" above the string means play it open, while an "X" means don't play the string.

## Tablature

**TABLATURE** graphically represents the guitar fingerboard. Each horizontal line represents a string, and each number represents a fret.

## Definitions for Special Guitar Notation

**HAMMER-ON:** Strike the first (lower) note with one finger, then sound the higher note (on the same string) with another finger by fretting it without picking.

**PULL-OFF:** Place both fingers on the notes to be sounded. Strike the first note and without picking, pull the finger off to sound the second (lower) note.

**LEGATO SLIDE:** Strike the first note and then slide the same fret-hand finger up or down to the second note. The second note is not struck.

**SHIFT SLIDE:** Same as legato slide, except the second note is struck.

## Additional Musical Definitions

**N.C.**

- No chord. Instrument is silent.

- Repeat measures between signs.
